COLLECTION

Etched

ETCHED is an innovative offering of prestige wood surfacing treatments for vertical applications. This engineered hard wood tile series combines organic wood surfaces animated by graphic etched designs. Each Etched® tile is cut, sanded, stained and hand finished with a beautiful no VOC hard oil wax. Inspired by the traditional warmth of wood but with an inventive and contemporary interpretation of ornamental patterns, every surface becomes a blank canvas to explore dimension, structure, shape and light. Our product is made in Nashville, Tennessee and can be customized to meet client's specific needs.

Specifications

- 9 ply Baltic-birch substrate with 4 mm wear layer
- Rubio Monocoat's Hard Oil Plus 2C Finish no VOC (option to order unfinished)
- Glue-up installation
- 6-8 week lead time

Product Usage Recommendations

- Suitable for residential and commercial vertical surfaces.
- Not recommended for areas with water exposure such as the interiors of baths and showers
- Not suitable for outdoor applications

Installation and Maintenance

- Allow approximately 5-7 days of acclimation
- Loctite Adhesive or Bostik's Best Adhesive recommended
- Tiles can be cut with a quality chop saw or other finish saw
- Dust and brush between chamfered edges regularly. Visit Rubio Monocoat's website for finish maintenance instructions & products
- Maintain humidity level between 35-65%
- Inspect order upon receiving; product is non-returnable once installed
